VETERAN DUST, **EXTERMINATOR** SWEEPING COMPOUND

is the successful result of years of dil gent study and careful experiment. It is not a liquid, but is manufactured in granulated form. An every day nece sity, not a laxary. It absorbs dirt and prevents dust from rising during the pr-cess of sweeping. It makes bare floors clean and smooth, saves scrubbing, kills the dust and germs, brightens up old carpets and rugs, obviates disastrou consequences of an inevitable cloud of dust while sweeping the old way.

Used on Floors, Tiles, Linoleums, Oil Cloths, Carpets and Rugs, and possesses proprieties that firmly grip the dust and drycleans them.

Practically Indispensable for Dwellings, Offices, Stores, Ware-houses, Pablic Buildings, Schools, Colleges, Hospitals, Churches, Theatres, Halls, Restaurants, Hotels, Factories or whatever microbe-infested dust accumulates on floor space.

It is inexpensive; pays for itself by saving hundreds of dollars in damaged goods each year, and it is guaranteed to do the work of exterminating dust.

Dust Breeds Consumption Dust is extremely disagreeable as well as dangerous, everybody admits that and argument is unnecessary. Dust is destructive, hence the necessity of using a Sweeping Compound of Established reputation and dependable quality, being guaranteed Antiseptic and a Disin-

Why take up carpets and beat them to pieces when the Veteran Dust Exterminator Sweeping Compound will gradually clean them where they are and bring back their original colors on the floor without taking them up?
This sweeping Compound does not lay

the cust, but removes it from the floor by absorption. No dust rises and sweeping becomes an unalloyed pleasure instead of masty drudgery. FOR SALE ONLY BY

The Leather of the Egyptians. The ancient Egyptians were skilled in the art of tanning leather and manufactured it in various ways and for various purposes besides that of furnishing covering for the feet. Indeed, it is to those builders of the pyramids that we are indebted for the first artistic forms of footwear, and, so far as can be ascertained from history and the researches of archaeologists, the Egyptians were the first shoemakers who were worthy of that name. It is a fact, too, that tanners of today employ very much the same methods as did the ancients. About the same materials are used, and the processes are almost precisely similar to those in vogue hundreds of years ago. It is true that tanners of the present day have found a means of greatly shortening the time required to convert a hide into leather and that steam power and modern machinery have done much to expedite and improve the processes of finishing the leather; but, after all, the principals of tanning remain the same as they have been from the first .-London Globe.

Posthaste.

He kicked off his wet boots, slid his tired feet into a pair of carpet slippers, lit his pipe, sat down in the easy chair with a sigh of relief and declared that twenty thousand wild horses couldn't make him stir from the house till morning.

And when, five minutes later, Henry came back with a tale that he'd just been to see how the thermometer out side the postoffice stood she smiled .-London Scraps.

Just Like Eve's Apple. A fruit supposed to bear the mark of Eve's teeth is one of the many botan ical curiosities of Ceylon. The tree on which it grows is known by the significant name of "the forbidden fruit," or "Eve's apple tree." The blossom has a very pleasant scent, but the really remarkable feature of the tree, the one to which it owes its name, is the fruit. It is beautiful and hangs from the tree in a peculiar manner. Orange on the outside and deep crimson within, each fruit has the appearance of having had a piece bitten out of it. This fact, together with its poisonous quality, led the Mohammedans to represent it as the forbidden fruit of the garden of Eden and to warn men against its noxious properties. The mark upon the fruit is attributed to Eve. Why the bite of Adam did not also leave its mark is not known, but

He struck a piece of country road and ran along for a half mile. He found a fence and vaulted it. He saw a tree and climbed it. Finally he returned to the village. Just as he struck the town a hand was laid on his shoulder, and a man said in a gruff voice:

Debtor (to shopgirl)-It's an outrage for your employer to have you present this bill here at the railroad station in the presence of all these people!
